Mission Moment

Ten years ago, it all started when a missionary mom of five wanted to help her kids get to know the other children in their new neighborhood of Kirtland, New Mexico, in the heart of Navajo American culture.

The Amberman family with *World Gospel Mission* moved to Kirtland to serve as missionaries but soon discovered the mission field wasn't out there-it was right in their own back yard....literally.

Children from around the area were drawn to her home and hospitality. They participated in after school activities, service projects and scripture lessons.

This growing group eventually became known as the *Neighborhood Club*, a full blown ministry with an emphasis on character building, biblical knowledge and spiritual growth. And, despite being from non-Christian homes... the kids kept coming. The good news is-entire families are being transformed by the power of Jesus Christ as a result, and..... The kids keep coming.

However, there is one problem... Space.... The lack of it. It is a good problem to have and one easy to solve.

The building plan for three phases of expansion beginning this year is already more than halfway funded through a partnership with *Men of Vision*. Their motto is "Praying, practicing and promoting missions."

Growth is a good thing and as you might imagine, there are a lot of logistics and planning that come with the construction of these new buildings to support the Kirtland Ministry Center and to give The Neighborhood House a widening reach.

The Amberman family with *World Gospel Mission* and their partners, *Men with Vision* asks for our prayers that "our plans match up with what God has in mind."
