

April 1, 2018 Easter

Mission Minute

All hope was lost. The body of Jesus was gone; Jesus, the one in whom Mary Magdalene and so many others had put their hope.... could not be found.

Mary had followed Jesus all the way to the cross, through his journey of suffering and a humiliating death. She had come to attend to his body. In her grief, Jesus called her name. He sent Mary to tell the disciples all she had seen at the tomb that day, how she went to prepare his body for its final rest....and instead heard, and then saw Jesus.

Easter reminds us of the nature of God within Jesus and the power of love.

Jesus' death on the cross was an act of love, demonstrating the power of love through Resurrection. That same power can set us free from sin, draw us together, and restore us into a relationship with God and one another.

Jesus' voice is calling still today. Jesus is alive and is calling us to share with the world the story of Jesus and the power of God's love.
