## Mission Moment

How did you learn to give as a child? Remember Lenten coin folders? We faithfully inserted a dime each day leading to Easter. Remember celebrating your birthday by inserting a penny in a church shaped bank for every year of your life? Then later, we learned about tithing in confirmation classes.

Young United Methodists today have a special opportunity to give through the **Children's Fund for Christian Mission**. In Africa, this mission empowers vulnerable youngsters to overcome poverty. Lithuanian children experience Christian camping experiences. In the Middle East, disabled children focus on comprehensive rehabilitation and in North America we strive to prevent abuse and neglect.

By supporting ministries that help people around the world, children grow as disciples of Jesus Christ. They learn to care for others, develop good habits of sharing, and build their knowledge of global cultures and practice being in mission with others.

Giving is fun! **Thanks to the Children's Fund for Christian Mission**, we nurture our youngest members to share their love for God through generous giving.
