## Mission Moments

Next Sunday, June 11<sup>th</sup>, we will be celebrating Peace with Justice Sunday. This is one of our six Special Sundays, when we take up a special offering across The United Methodist Church to support work being done locally and globally through the Peace with Justice Ministries.

We recognize that talking about peace is not enough. We also recognize that praying for peace must be accompanied by our actions.

The work of Peace with Justice Ministries occurs because we know that unless we all are at peace; there will not be true peace for any of us.

Our Peace with Justice gifts have supported programs that work toward ending human trafficking, assisting refugees and immigrants, and helping communities address poverty and violence. These works of peace are done in the spirit of completeness that we were created for in our individual relationships, with our communities and in the world that God created.

Our gifts on Peace with Justice Sunday will be used locally within annual conferences, as well as globally in the U.S. and abroad for social action, public policy education and advocacy projects that promote peace and justice.
